Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

\*They Have Pulled This Over ALL Of Us In NC, Without ANY Input From The Public Or ANYTHING. This Was A Very Sneaky Stunt They've Pulled & It Just Is NOT FAIR!

Sincerely,

Jody Webb
